

# MICHAEL ANDERSON

## Instructional Technology Specialist

Dynamic Digital Learning Specialist with over 9 years of experience in higher education, focused on enhancing teaching and learning through technology. I have a deep understanding of instructional design principles and have successfully led initiatives that integrate technology into the curriculum. My role involves collaborating with faculty to develop engaging online and hybrid courses that cater to diverse learning styles.

### WORK EXPERIENCE

#### Instructional Technology Specialist

2020-2023

University of Learning

- Led the development of over 40 online courses, improving student engagement metrics by 35%.
- Collaborated with faculty to redesign existing courses for online delivery.
- Conducted training sessions for faculty on the use of LMS tools, enhancing their teaching effectiveness.
- Implemented strategies to increase accessibility and inclusivity in digital learning environments.
- Analyzed student feedback to continuously improve course design and delivery.
- Coordinated with IT teams to ensure optimal functionality of e-learning platforms.

#### eLearning Coordinator

2019-2020

City College

- Managed the transition from traditional to online learning for over 10,000 students.
- Developed a digital resource center for faculty and students to access training materials.
- Facilitated workshops on best practices for online teaching and learning.
- Evaluated course effectiveness through data analysis and learner feedback.
- Partnered with academic departments to align digital resources with curriculum requirements.
- Promoted the use of technology to enhance student learning outcomes.

### ACHIEVEMENTS

- Increased student retention rates by 20% through innovative online course design.
- Received the 'Excellence in Teaching Award' for contributions to digital education.
- Successfully led a team to implement a new LMS, enhancing the learning experience for students and faculty.
