Creative Digital Learning Specialist with over 3 years of experience in the arts and entertainment sector, focused on developing engaging digital content for creative professionals. My background in multimedia arts allows me to create visually appealing and interactive learning experiences that resonate with artists and creative thinkers. I have successfully developed online workshops and courses that foster skill development in various artistic disciplines.

WORK EXPERIENCE

Digital Learning Developer | Creative Minds Academy

Jan 2022 – Present

- Designed and launched over 15 online courses focusing on digital art and design.
- Utilized Adobe Creative Suite to create engaging visual content for e-learning modules.
- Facilitated virtual workshops that attracted over 300 participants from various backgrounds.
- Collaborated with industry professionals to ensure course relevancy and quality.
- Managed project timelines and budgets to deliver high-quality educational content.
- Analyzed participant feedback to improve course offerings and enhance learner experience.

eLearning Coordinator | Artistry Online

Jul 2019 – Dec 2021

- Developed multimedia resources that increased engagement in online art courses by 40%.
- Implemented new e-learning technologies to enhance the artistic learning experience.
- Trained instructors on effective online teaching strategies and tools.
- Evaluated course outcomes and participant satisfaction through surveys and data analysis.
- Collaborated with marketing teams to promote online workshops and increase enrollment.
- Assisted in the development of a digital portfolio platform for students.
