WORK EXPERIENCE

E-Sports Data Analyst

2020-2023

Data Driven Gaming

- Analyzed player performance metrics to inform coaching and training strategies.
- Developed dashboards for real-time tracking of game statistics and audience engagement.
- Collaborated with marketing teams to optimize campaign targeting based on data insights.
- Conducted post-event analysis to evaluate success and identify improvement areas.
- Utilized predictive analytics to forecast audience trends and behavior.
- Presented findings to stakeholders to guide decision-making processes.

Research Assistant

2019-2020

E-Sports Research Institute

- Conducted research on emerging trends in the e-sports industry.
- Assisted in data collection and analysis for various projects.
- Collaborated with teams to develop research reports and presentations.
- Evaluated competitive landscapes to inform strategic recommendations.
- Presented research findings at industry conferences.
- Supported grant writing efforts to secure funding for e-sports initiatives.

ACHIEVEMENTS

- Improved player performance metrics by 20% through data-driven training programs.
- Recognized for delivering impactful presentations at leading e-sports conferences.
- Contributed to a research project that was published in a top gaming journal.
