- French

WORK EXPERIENCE

Lead Urban Designer

2020-2023

Future City Designs

- Designed smart public spaces incorporating IoT technologies for enhanced user experience.
- Collaborated with engineers and planners to develop integrated urban solutions.
- Managed design projects from conceptualization through to execution.
- Engaged with community stakeholders to gather input on design proposals.
- Utilized software tools to simulate urban design outcomes and impacts.
- Presented design concepts to city officials and community groups for feedback.

Urban Planning Associate

2019-2020

City Planning Solutions

- Assisted in the development of urban planning strategies focused on sustainability.
- Conducted site assessments to inform design decisions and urban policies.
- Collaborated with multidisciplinary teams to create comprehensive urban plans.
- Prepared reports and presentations summarizing design proposals for stakeholders.
- Facilitated public meetings to educate citizens on urban planning initiatives.
- Developed visual materials to communicate design concepts effectively.

ACHIEVEMENTS

- Received the 'Excellence in Urban Design' award for innovative public space projects.
- Successfully led a project that improved urban livability metrics by 20%.
- Increased community involvement in urban design processes by 50% through workshops.
