SKILLS

- data analytics
- machine learning
- community engagement
- research methodology
- grant writing
- data visualization

LANGUAGES

- English
- Spanish
- French

EDUCATION

**MASTER OF SCIENCE IN DATA
ANALYTICS, NEW YORK UNIVERSITY**

ACHIEVEMENTS

- Developed a predictive model that improved disaster response planning by 30%.
- Received the 'Emerging Leader' award from the International Disaster Association.
- Published research findings in a top-tier academic journal.

WORK EXPERIENCE

DATA ANALYST FOR DISASTER RELIEF

International Relief Alliance

2020 - 2025

- Developed innovative data collection techniques to enhance research accuracy.
- Utilized machine learning algorithms to predict disaster-related trends.
- Collaborated with IT teams to create an interactive dashboard for data visualization.
- Engaged in cross-functional teams to develop disaster response simulations.
- Provided analytical support for grant proposals, increasing funding opportunities.
- Presented research findings to senior management, influencing strategic decisions.

RESEARCH INTERN

Global Disaster Research Institute

2015 - 2020

- Assisted in the development of a comprehensive disaster response toolkit.
- Conducted literature reviews to support ongoing research projects.
- Participated in field research to gather data on disaster impacts.
- Supported outreach efforts to engage community stakeholders.
- Analyzed survey data to provide insights into community preparedness.
- Contributed to the writing of research reports and publications.
