## **EXPERTISE SKILLS**

- Protein purification
- Process development
- GMP compliance
- Analytical techniques
- Team collaboration
- Data analysis

## **LANGUAGES**

- English
- Spanish
- French

## **CERTIFICATION**

- B.S. in Biology, University of Michigan

## **REFERENCES**

# MICHAEL ANDERSON

## DOWNSTREAM PROCESS DEVELOPER

Results-driven Downstream Bioprocess Specialist with extensive experience in the pharmaceutical industry, specializing in the purification of therapeutic proteins. Over 8 years of hands-on experience in process development and optimization, demonstrating a strong capacity for analytical problem-solving and innovative thinking. Proven history of successfully managing purification projects from conception to execution, ensuring compliance with regulatory standards and company policies.

## **PROFESSIONAL EXPERIENCE**

### **TheraTech Labs**

*Mar 2018 - Present*

Downstream Process Developer

- Designed and executed purification strategies for protein-based therapeutics.
- Conducted scale-down studies to optimize process parameters.
- Collaborated with QA to ensure compliance with GMP standards.
- Utilized HPLC and UF/DF techniques for product characterization.
- Documented process improvements and contributed to regulatory submissions.
- Trained interns on laboratory best practices and safety protocols.

### **BioGenix Solutions**

*Dec 2015 - Jan 2018*

Junior Downstream Scientist

- Supported the development of purification workflows for monoclonal antibodies.
- Performed routine maintenance and calibration of bioprocess equipment.
- Assisted in data analysis and interpretation for process optimization.
- Maintained laboratory notebooks and documentation for compliance.
- Collaborated with team members to troubleshoot process-related issues.
- Participated in team meetings to discuss project progress and challenges.

## **ACHIEVEMENTS**

- Successfully implemented a new purification method that improved yield by 15%.
- Received 'Employee of the Month' for outstanding contributions to project success.
- Contributed to a team that achieved a significant reduction in process cycle time.
