SKILLS

- Operational Strategy
- Lean Manufacturing
- Budget Management
- Team Development
- Safety Management
- Performance Analysis

LANGUAGES

- English
- Spanish
- French

EDUCATION

BACHELOR OF SCIENCE IN CHEMICAL ENGINEERING, UNIVERSITY OF TEXAS, 2012

ACHIEVEMENTS

- Achieved a 15% reduction in operational costs through process improvements in 2019.
- Led a team that received the 'Excellence in Safety' award for outstanding safety performance.
- Successfully implemented a new technology that enhanced production efficiency by 20%.

PROFILE

Strategic and analytical Downstream Operations Manager with extensive experience in the petrochemical industry. Recognized for an ability to drive operational efficiency and reduce costs through innovative solutions and process enhancements. Proficient in managing large-scale projects with a focus on safety, compliance, and team development. Demonstrates exceptional leadership skills, fostering collaboration among diverse teams to achieve common goals.

EXPERIENCE

DOWNSTREAM OPERATIONS LEADER

PetroChem Corp

2016 - Present

- Led strategic initiatives to improve downstream operations, achieving a 30% increase in throughput.
- Implemented lean manufacturing principles, resulting in a significant reduction in cycle times.
- Managed a budget of \$10 million, ensuring optimal allocation of resources.
- Collaborated with engineering teams to enhance product quality and reduce defects.
- Developed training programs that improved employee engagement and productivity.
- Established safety protocols that reduced incident rates by 40%.

OPERATIONS ANALYST

ChemTech Solutions

2014 - 2016

- Conducted detailed analysis of downstream operations to identify areas for improvement.
- Utilized statistical process control tools to monitor performance metrics.
- Supported project teams in implementing operational improvements that enhanced efficiency.
- Prepared comprehensive reports for senior management on operational performance.
- Facilitated workshops to promote best practices across the organization.
- Assisted in the development of operational budgets and forecasts.
