SKILLS

- Drip irrigation systems
- Sustainable practices
- Data analytics
- Training and education
- Community engagement
- System monitoring
- Crop management

LANGUAGES

- English
- Spanish
- French

EDUCATION

BACHELOR OF SCIENCE IN ENVIRONMENTAL ENGINEERING, UNIVERSITY OF CALIFORNIA, BERKELEY, 2014

ACHIEVEMENTS

- Increased water conservation by 35% across multiple client farms through innovative designs.
- Recognized for outstanding service by Sustainable AgriTech in 2022.
- Contributed to a research paper on the impact of irrigation on crop yield published in an agricultural journal.

WORK EXPERIENCE

IRRIGATION SOLUTIONS SPECIALIST

Sustainable AgriTech

2020 - 2025

- Designed and installed over 20 advanced drip irrigation systems for diverse crop types.
- Conducted training sessions to educate farmers on system efficiency and maintenance.
- Utilized data analytics tools to monitor system performance and optimize water usage.
- Collaborated with agricultural scientists to enhance crop irrigation strategies.
- Reviewed and updated irrigation plans based on seasonal changes and data analysis.
- Facilitated community workshops to promote sustainable irrigation practices.

AGRICULTURAL TECHNICIAN

Harvest Innovations

2015 - 2020

- Assisted in the installation of irrigation systems on various agricultural sites.
- Conducted soil moisture testing to inform irrigation scheduling decisions.
- Provided support during system troubleshooting and maintenance.
- Monitored crop health and irrigation efficiency metrics for reporting.
- Engaged with farmers to gather feedback on system performance.
- Participated in research projects focused on irrigation technology advancements.
