MICHAEL ANDERSON

PERFORMANCE ANALYST

Accomplished E-Sports Specialist with a focus on analytics and performance optimization, equipped with a strong background in statistical modeling and data-driven decision-making. Demonstrated expertise in utilizing advanced analytics tools to assess player performance metrics and develop actionable insights that enhance competitive outcomes. Proven ability to design and implement training programs that elevate team dynamics and individual player skills.

PROFESSIONAL EXPERIENCE

Team Liquid   *Mar 2018 - Present*
Performance Analyst

- Conducted in-depth analysis of player performance data to inform coaching strategies.
- Utilized machine learning algorithms to predict match outcomes and player efficiency.
- Collaborated with coaching staff to develop tailored training regimens based on statistical insights.
- Presented analytical findings to stakeholders, influencing strategic decisions.
- Developed dashboards for real-time performance monitoring during tournaments.
- Assessed the impact of external factors on player performance, enhancing preparation strategies.

Riot Games   *Dec 2015 - Jan 2018*
Data Analyst

- Analyzed player engagement metrics to drive game feature development.
- Created predictive models to optimize player retention and monetization strategies.
- Worked closely with game designers to align analytics with user experience goals.
- Developed reports that influenced marketing campaigns and community outreach.
- Implemented A/B testing frameworks to evaluate game changes.
- Collaborated across departments to ensure data integrity and accuracy.

ACHIEVEMENTS

- Improved team win rates by 20% through data-driven training initiatives.
- Published research on player behavior that was featured in industry journals.
- Received recognition for innovative use of analytics in competitive gaming.
