WORK EXPERIENCE

EARTHQUAKE POLICY CONSULTANT

National Earthquake Preparedness Agency

2020 - 2025

- Developed policies aimed at improving earthquake preparedness at the national level.
- Collaborated with engineers and policymakers to enhance building regulations.
- Conducted workshops to educate local governments on earthquake risk mitigation.
- Analyzed the effectiveness of existing policies and proposed improvements.
- Engaged with community stakeholders to gather feedback on preparedness initiatives.
- Authored reports that influenced national safety standards and practices.

SENIOR EARTHQUAKE ENGINEER

Safe Building Initiative

2015 - 2020

- Led projects focused on enhancing community resilience to seismic events.
- Conducted detailed assessments of public infrastructure for earthquake readiness.
- Collaborated with architects and planners to design safer public spaces.
- Presented findings to government officials, influencing funding for safety projects.
- Facilitated community engagement programs to raise awareness of earthquake risks.
- Increased funding by 40% for safety initiatives through effective advocacy.
