EDUCATION

MASTER'S IN ECONOMIC ANTHROPOLOGY, UNIVERSITY OF CALIFORNIA, BERKELEY

ACHIEVEMENTS

- Contributed to a successful grant application resulting in \$200,000 for indigenous economic research.
- Presented research findings at the International Conference on Indigenous Economies in 2019.
- Developed a community resource guide that has been adopted by multiple indigenous organizations.

PROFILE

As an Economic Anthropologist with expertise in indigenous economic systems, I have dedicated my career to understanding how traditional practices influence contemporary economic behaviors. My journey began with a passion for cultural preservation, which led me to study the economic adaptations of indigenous peoples in various regions. I have spent the past 8 years conducting fieldwork, collaborating closely with local communities to document their economic strategies.

EXPERIENCE

FIELD RESEARCH COORDINATOR

Indigenous Economic Development Project

2016 - Present

- Coordinated field research with indigenous communities to document their economic practices and challenges.
- Conducted workshops to educate community members about the importance of preserving traditional economic systems.
- Utilized participatory research methods to ensure community involvement in data collection.
- Analyzed qualitative data to develop reports that informed local economic strategies.
- Collaborated with policymakers to advocate for indigenous rights in economic planning.
- Facilitated communication between researchers and community leaders to enhance project outcomes.

RESEARCH ASSISTANT

Cultural Heritage Institute

2014 - 2016

- Assisted in ethnographic research focused on the economic impacts of tourism in indigenous regions.
- Conducted interviews and surveys to gather data on community perspectives regarding tourism.
- Collaborated on a publication that highlighted the economic benefits and drawbacks of tourism.
- Supported the development of educational materials for local stakeholders on sustainable tourism practices.
- Participated in community meetings to present research findings and gather feedback.
- Helped organize cultural events to promote awareness of indigenous economic systems.
