SKILLS

- Environmental Economics
- Ethnographic Research
- Data Analysis
- Community Engagement
- Policy Advocacy
- Sustainable Development

EDUCATION

PH.D. IN ENVIRONMENTAL ANTHROPOLOGY, UNIVERSITY OF FLORIDA

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Published research on the relationship between cultural practices and environmental sustainability.
- Secured a \$250,000 grant for a community-based environmental project.
- Presented at the World Conference on Environmental Anthropology in 2020.

Michael Anderson

ENVIRONMENTAL ECONOMIC CONSULTANT

With a strong foundation in environmental economics, I am an Economic Anthropologist specializing in the intersection of environmental issues and economic practices. Over the past 8 years, I have dedicated myself to understanding how cultural values shape environmental policies and economic behaviors. My work involves conducting ethnographic research in diverse settings, from rural communities to urban centers, assessing how local economies adapt to environmental challenges.

EXPERIENCE

ENVIRONMENTAL ECONOMIC CONSULTANT

Eco-Development Solutions

2016 - Present

- Conducted research on the impact of environmental changes on local economies in coastal regions.
- Collaborated with communities to assess their economic vulnerabilities related to climate change.
- Developed strategies for sustainable economic practices that incorporate traditional knowledge.
- Presented findings to stakeholders, influencing local environmental policies.
- Facilitated workshops on sustainable practices for local entrepreneurs.
- Authored reports that highlight the importance of integrating environmental considerations into economic planning.

RESEARCH ASSOCIATE

Center for Environmental Anthropology

2014 - 2016

- Assisted in ethnographic studies examining the economic implications of environmental degradation.
- Conducted interviews with community members to understand their economic adaptations.
- Collaborated on the development of educational materials for local organizations.
- Participated in conferences to present research findings on environmental economics.
- Analyzed data to inform policy recommendations for sustainable development.
- Supported grant writing efforts to secure funding for research projects.
