WORK EXPERIENCE

Urban Economic Researcher

2020-2023

Urban Policy Institute

- Conducted research on urban development trends and their economic impacts.
- Analyzed housing policies and their effects on community demographics.
- Collaborated with local governments to inform urban planning initiatives.
- Presented research findings to stakeholders, enhancing understanding of urban issues.
- Utilized GIS software to map urban development and housing trends.
- Authored reports on urban policy that guided community development strategies.

Housing Policy Analyst

2019-2020

National Housing Coalition

- Analyzed the economic implications of housing policies on urban communities.
- Supported the development of policy recommendations to address housing shortages.
- Engaged with community organizations to promote affordable housing initiatives.
- Conducted surveys to assess public perceptions of housing policies.
- Facilitated discussions among stakeholders to identify housing challenges and solutions.
- Contributed to the preparation of reports for governmental review.

ACHIEVEMENTS

- Influenced housing policy changes that improved access to affordable housing.
- Published research that received recognition from urban policy organizations.
- Developed a community engagement framework that increased stakeholder participation.
