WORK EXPERIENCE

Health Economics Analyst

2020-2023

Center for Health Policy Research

- Conducted economic evaluations of healthcare programs to assess their impact.
- Developed analytical frameworks to analyze cost-effectiveness of interventions.
- Collaborated with public health officials to inform policy recommendations.
- Presented findings at health policy conferences to influence decision-making.
- Authored reports that guided funding allocations for health programs.
- Facilitated stakeholder meetings to discuss healthcare policy implications.

Research Analyst

2019-2020

Public Health Institute

- Assisted in evaluating public health policies and their economic impacts.
- Supported senior economists in drafting research reports on health disparities.
- Conducted surveys to gather data on healthcare access and outcomes.
- Engaged with community organizations to promote health equity initiatives.
- Co-authored articles published in health economics journals.
- Participated in public forums to discuss health policy research findings.

ACHIEVEMENTS

- Led a study that informed a state-level health policy reform.
- Recognized for contributions to research on health equity.
- Secured funding for a project on the economic impacts of preventive health measures.
