# MICHAEL ANDERSON

## ASSOCIATE PROFESSOR OF ENVIRONMENTAL ECONOMICS

Dynamic Economics Educator with a specialization in environmental economics and sustainability, bringing over 12 years of experience in academia and policy analysis. Adept at integrating economic theory with environmental challenges, fostering a comprehensive understanding of sustainability among students. Recognized for developing interdisciplinary courses that bridge economics, environmental science, and public policy.

## **PROFESSIONAL EXPERIENCE**

### **Sustainable University**

*Mar 2018 - Present*

Associate Professor of Environmental Economics

- Developed and taught undergraduate and graduate courses on environmental economics and policy.
- Conducted research on the economic impacts of climate change, publishing findings in reputable journals.
- Hosted community workshops to promote understanding of sustainability and economic practices.
- Collaborated with environmental organizations to enhance curriculum and research initiatives.
- Mentored students in research projects related to sustainability and environmental policy.
- Utilized simulation tools to illustrate economic concepts related to environmental issues.

### **Regional College**

*Dec 2015 - Jan 2018*

Economics Lecturer

- Taught introductory courses in economics with a focus on environmental applications.
- Engaged students through project-based learning and case studies on sustainability.
- Evaluated course effectiveness through student feedback and performance metrics.
- Contributed to curriculum development that incorporates sustainability into economic education.
- Organized field trips to local businesses focusing on sustainable practices.
- Participated in faculty committees to enhance interdisciplinary collaboration.

## **ACHIEVEMENTS**

- Recipient of the Sustainability in Education Award for innovative course development.
- Published articles on the intersection of economics and environmental policy.
- Led community initiatives to promote economic literacy in sustainability practices.
