I am a results-oriented Education Access Researcher with a focus on special education and advocacy. With 5 years of experience in research and direct service, I have worked extensively with students with disabilities to ensure their access to quality educational resources. My research has involved evaluating the effectiveness of special education programs and identifying gaps in services for students with unique learning needs.

## WORK EXPERIENCE

### Special Education Researcher | National Center for Special Education Research

Jan 2022 – Present

- Conducted research on the effectiveness of special education interventions.
- Collaborated with teachers to assess student progress and program outcomes.
- Designed surveys to gather feedback from parents on service delivery.
- Presented findings to stakeholders to advocate for resource improvements.
- Participated in community outreach efforts to raise awareness of special education needs.
- Managed data collection and analysis processes to ensure compliance with regulations.

### Advocacy Coordinator | Disability Rights Organization

Jul 2019 – Dec 2021

- Led initiatives to promote awareness of educational rights for students with disabilities.
- Facilitated workshops for parents and educators on advocacy strategies.
- Collaborated with policy-makers to influence special education legislation.
- Conducted surveys to assess community needs regarding special education services.
- Authored grant proposals to secure funding for advocacy projects.
- Provided training for staff on best practices in special education advocacy.
