

MICHAEL ANDERSON

EDUCATION DATA SPECIALIST

PROFILE

Detail-oriented Education Data Researcher with 5 years of experience specializing in K-12 education systems. Committed to leveraging data to influence policy and promote equitable educational practices. Proficient in utilizing both qualitative and quantitative research methods to analyze the effectiveness of educational programs. Skilled in collaborating with teachers, administrators, and other stakeholders to implement data-driven strategies that improve student outcomes.

EXPERIENCE

EDUCATION DATA SPECIALIST

Bright Future Academy

2016 - Present

- Managed the collection and analysis of student performance data to inform instructional strategies.
- Collaborated with teachers to create data dashboards for real-time assessment of student learning.
- Facilitated training sessions for staff on the importance of data in educational settings.
- Analyzed demographic data to identify achievement gaps and recommend interventions.
- Designed and implemented surveys to gather feedback from students and parents.
- Utilized Excel and Tableau to visualize data trends for presentations to the school board.

DATA ANALYST INTERN

National Education Association

2014 - 2016

- Assisted in the development of research studies focused on educational equity.
- Conducted data entry and validation for large datasets related to student assessments.
- Supported senior analysts in preparing reports for educational policy recommendations.
- Participated in meetings with stakeholders to discuss data findings and implications.
- Developed presentation materials that communicated complex data in an accessible manner.
- Familiarized with data privacy laws and practices to ensure compliance in research activities.
