I am a passionate Education Effectiveness Researcher with over 11 years of experience in K-12 education, focusing on improving instructional quality and student outcomes through research. My background includes working closely with teachers to develop and implement evidence-based practices that enhance learning experiences. I have been involved in various research initiatives aimed at evaluating the impact of teaching methods and curriculum designs on student achievement.

## WORK EXPERIENCE

### Instructional Research Specialist | K-12 Research Institute

Jan 2022 – Present

- Led research initiatives assessing instructional strategies, resulting in a 15% increase in student achievement.
- Collaborated with teachers to design data-driven interventions tailored to student needs.
- Presented research findings to school boards, influencing curriculum development decisions.
- Facilitated professional development sessions for educators on effective instructional practices.
- Analyzed student performance data to identify trends and areas for improvement.
- Authored research reports that guided school-wide improvement initiatives.

### Research Analyst | State Education Agency

Jul 2019 – Dec 2021

- Conducted evaluations of state-funded educational programs, ensuring compliance with educational standards.
- Developed evaluation tools to assess program effectiveness and student outcomes.
- Collaborated with district leaders to align research with strategic educational goals.
- Authored evaluation reports that shaped local education policies.
- Facilitated workshops for educators on interpreting research findings.
- Utilized statistical software for data analysis, enhancing the accuracy of program evaluations.
