## EXPERTISE SKILLS

- Data Analytics
- Machine Learning
- Educational Technology
- Dashboard Development
- Statistical Software
- User Experience Design

## LANGUAGES

- English
- Spanish
- French

## CERTIFICATION

- Bachelor's in Computer Science, Stanford University

# MICHAEL ANDERSON

## DATA ANALYST FOR EDUCATIONAL PROGRAMS

Innovative Education Evaluation Researcher with a strong focus on technology integration in educational assessment. With over 6 years of experience, I have specialized in leveraging data analytics and machine learning techniques to enhance evaluation processes. My career has been dedicated to developing adaptive assessment tools that provide real-time feedback to educators and students.

## PROFESSIONAL EXPERIENCE

### **EdTech Innovations Inc.**

*Mar 2018 - Present*

Data Analyst for Educational Programs

- Developed machine learning algorithms to predict student performance based on historical data.
- Created interactive dashboards that visualize real-time assessment results for educators.
- Participated in design sprints to create user-friendly evaluation tools.
- Analyzed user engagement data to optimize digital learning platforms.
- Collaborated with software developers to enhance data collection methods.
- Trained educators on using technology for effective assessment practices.

### **Learning Analytics Research Center**

*Dec 2015 - Jan 2018*

Evaluation Research Assistant

- Assisted in developing predictive models to track student retention rates.
- Conducted usability testing for new educational assessment tools.
- Gathered and analyzed survey data to inform iterative design processes.
- Presented analytical findings to stakeholders, enhancing project visibility.
- Worked with interdisciplinary teams to integrate technology into evaluation frameworks.
- Documented best practices for data-driven decision-making in education.

## ACHIEVEMENTS

- Successfully increased user engagement on educational platforms by 40% through data-driven enhancements.
- Contributed to a research project that received a grant of \$500,000 for innovative educational technology solutions.
- Published articles in educational technology journals, influencing industry practices.
