Proficient Education Evaluation Researcher with over 11 years of experience in public policy and educational assessment. My career has been dedicated to evaluating the effectiveness of policies and programs aimed at improving educational outcomes for disadvantaged populations. I have extensive experience in conducting large-scale evaluations, employing both qualitative and quantitative methods to assess program impact.

WORK EXPERIENCE

Senior Policy Analyst | Department of Education   Jan 2022 – Present

- Conducted evaluations of national education policies, influencing legislative changes.
- Utilized advanced statistical techniques to analyze program effectiveness and impact.
- Prepared comprehensive reports for policymakers, enhancing understanding of evaluation findings.
- Collaborated with stakeholders to develop evaluation frameworks aligned with policy goals.
- Facilitated training sessions on evaluation methodologies for state education agencies.
- Mentored junior analysts, fostering a culture of research excellence.

Research Evaluator | Center for Education Policy Analysis   Jul 2019 – Dec 2021

- Led evaluations of educational programs funded by federal grants, ensuring compliance with regulations.
- Analyzed data trends to assess the impact of educational initiatives on student outcomes.
- Presented findings to diverse audiences, including community stakeholders and policymakers.
- Developed evaluation tools that enhanced data collection efficiency.
- Contributed to the development of strategic plans for long-term program evaluation.
- Coordinated with research teams to publish findings in academic journals.

SKILLS

Public Policy Analysis   Program Evaluation   Data Interpretation   Stakeholder Engagement   Statistical Analysis
