I am a passionate Education Governance Researcher with over 6 years of experience dedicated to enhancing educational policy through thorough research and analysis. My work has focused on identifying governance challenges and proposing evidence-based solutions that promote educational equity. I have collaborated with various educational institutions and governmental agencies to develop policies that foster accountability and transparency.

WORK EXPERIENCE

Governance Research Analyst | Education Policy Institute

Jan 2022 – Present

- Conducted research on governance frameworks and their impact on educational outcomes.
- Collaborated with educational institutions to assess governance effectiveness.
- Analyzed data to inform policy recommendations for local education agencies.
- Presented research findings at conferences to engage stakeholders.
- Authored articles that contributed to the discourse on education governance.
- Participated in cross-functional teams to develop governance improvement plans.

Research Intern | State Education Agency

Jul 2019 – Dec 2021

- Assisted in data collection and analysis related to governance policies.
- Supported senior researchers in preparing reports on governance effectiveness.
- Conducted literature reviews to identify successful governance practices.
- Participated in meetings with stakeholders to discuss governance issues.
- Engaged in outreach efforts to disseminate research findings to local communities.
- Contributed to the development of a comprehensive governance database.
