SKILLS

- Educational technology
- Data analysis
- Program evaluation
- Survey design
- Stakeholder engagement

EDUCATION

MASTER OF SCIENCE IN EDUCATIONAL TECHNOLOGY, UNIVERSITY OF SOUTHERN CALIFORNIA

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Secured a \$250,000 grant for a study on technology use in rural schools, improving access to digital resources.
- Increased student engagement in blended learning environments by 30% through implemented strategies.
- Recognized as a leading voice in educational technology research at the National EdTech Conference in 2022.

Michael Anderson

EDUCATION TECHNOLOGY RESEARCHER

I am a results-driven Education Reform Researcher with over 7 years of experience focusing on the integration of technology in education. My background in educational technology and research has allowed me to explore how digital tools can enhance teaching and learning processes. I have worked on various projects that assess the impact of technology on student engagement and achievement, collaborating closely with educators to design effective interventions.

EXPERIENCE

EDUCATION TECHNOLOGY RESEARCHER

Tech for Learning

2016 - Present

- Conducted research on the effectiveness of digital learning tools in K-12 education.
- Collaborated with educators to design studies that assess technology integration in classrooms.
- Utilized survey software to gather data on student engagement, achieving a 25% increase in response rates.
- Presented findings to school boards, advocating for the adoption of new technologies.
- Published articles on technology trends in education, enhancing the organization's visibility.
- Organized training sessions for teachers on effective technology use in the classroom.

RESEARCH ASSISTANT

University of Michigan

2014 - 2016

- Assisted in research projects evaluating the impact of online learning platforms on student outcomes.
- Conducted data analysis using statistical software, contributing to significant findings presented at conferences.
- Worked with faculty to develop surveys and instruments for data collection.
- Contributed to grant proposals that secured funding for technology-focused educational research.
- Facilitated focus groups to gather insights from students and teachers regarding technology use.
- Supported the dissemination of research findings through webinars and publications.
