EDUCATION

MASTER'S IN EDUCATIONAL LEADERSHIP, UNIVERSITY OF LEARNING, 2011

ACHIEVEMENTS

- Recognized with the Outstanding Research Award by the National Education Association in 2019.
- Increased engagement in research studies by 50% through innovative outreach strategies.
- Implemented a mentorship program for new researchers, enhancing team productivity.

PROFILE

Dynamic Education Research Specialist with over 10 years of experience working within the K-12 education sector. My expertise encompasses the design and execution of research projects aimed at improving instructional practices and student outcomes. I have a strong background in mixed-methods research, allowing me to integrate quantitative metrics with qualitative insights effectively.

EXPERIENCE

LEAD RESEARCHER

K-12 Research Center

2016 - Present

- Designed and managed research studies assessing the impact of technology integration in classrooms.
- Analyzed student performance data, leading to a 20% increase in overall test scores.
- Conducted interviews and surveys with over 1,000 educators to gather insights on teaching practices.
- Collaborated with district leaders to develop data-driven professional development programs.
- Presented research findings at national education conferences, influencing best practices across districts.
- Developed online resources for educators based on research outcomes, enhancing teaching effectiveness.

RESEARCH ASSOCIATE

State Education Department

2014 - 2016

- Conducted statewide evaluations of school improvement initiatives, providing actionable feedback to schools.
- Facilitated workshops for educators on data analysis and interpretation of research findings.
- Collaborated with various departments to ensure alignment of research with educational standards.
- Managed a team of researchers to streamline data collection processes.
- Authored comprehensive reports that informed policy adjustments at the state level.
- Utilized software tools to visualize data trends for presentations to stakeholders.
