## POLICY ANALYST

Results-oriented Education Statistics Researcher with more than 12 years of experience in educational policy analysis and program evaluation. My expertise lies in designing and executing rigorous research studies that evaluate the effectiveness of educational programs. I have collaborated with government agencies and educational institutions to generate data-driven insights that guide policy decisions.

## **PROFESSIONAL EXPERIENCE**

### **Department of Education**

*Mar 2018 - Present*

#### Policy Analyst

- Led evaluations of statewide educational programs, providing insights that shaped funding allocations.
- Developed comprehensive reports on program effectiveness, influencing policy changes at the state level.
- Conducted statistical analyses using STATA to assess the impact of educational interventions.
- Collaborated with cross-functional teams to design surveys that captured stakeholder feedback and needs.
- Facilitated workshops for policymakers on interpreting data and utilizing research to inform decisions.
- Managed multiple projects simultaneously, ensuring timely delivery of research findings.

### **Educational Research Associates**

*Dec 2015 - Jan 2018*

#### Research Consultant

- Conducted independent research on educational equity, focusing on access to resources in low-income communities.
- Utilized qualitative methods to gather insights from educators and community stakeholders.
- Provided strategic recommendations based on findings, leading to increased funding for targeted programs.
- Published articles in education journals, contributing to the discourse on policy reform.
- Presented findings to educational boards, advocating for change based on data evidence.
- Developed research proposals that secured funding for multiple projects focused on education access.

## **ACHIEVEMENTS**

- Influenced state-level policy changes that improved funding for low-income schools by 30%.
- Recognized as 'Researcher of the Year' for outstanding contributions to educational policy analysis.
