Passionate and analytical Education Technology Researcher with over 7 years of experience specializing in K-12 educational systems. My professional journey has been marked by a commitment to understanding how educational technologies can be effectively utilized to enhance student learning outcomes. I have worked closely with school districts to identify and implement innovative solutions that cater to diverse learner needs.

WORK EXPERIENCE

K-12 Education Researcher | Future Ready Schools   Jan 2022 – Present

- Conducted research studies on the impact of technology on student engagement, resulting in actionable recommendations for educators.
- Collaborated with school administrators to design professional development programs focused on technology integration.
- Facilitated workshops and training sessions for teachers on effective technology use in the classroom.
- Analyzed student performance data to assess the effectiveness of technology interventions.
- Developed resources and toolkits for educators to support technology integration efforts.
- Participated in district-wide initiatives to promote digital literacy among students.

Instructional Technology Specialist | Bright Minds Academy   Jul 2019 – Dec 2021

- Supported the integration of technology into core subject areas, enhancing student learning experiences.
- Evaluated educational software for alignment with curriculum standards.
- Provided ongoing support and training to teachers in using technology effectively.
- Collaborated with curriculum developers to create tech-enhanced learning materials.
- Gathered feedback from students and teachers to improve technology tools.
- Contributed to grant proposals aimed at securing funding for technology initiatives.
