

Michael ANDERSON

ASSESSMENT TECHNOLOGY SPECIALIST

As an Educational Psychometrics Researcher with a focus on technology integration in assessments, I bring over 6 years of experience in developing digital assessment tools that enhance learning and provide real-time feedback to educators and students. My background in educational technology and psychometrics allows me to create assessments that are not just valid and reliable but also user-friendly and engaging.

EDUCATION

**M.S. IN EDUCATIONAL TECHNOLOGY,
UNIVERSITY OF DIGITAL LEARNING**

ACHIEVEMENTS

- Increased teacher adoption of digital assessments by 50% through targeted training.
- Received the Technology in Education Innovation Award in 2021.
- Published 5 articles on the integration of technology in educational assessments.

WORK EXPERIENCE

ASSESSMENT TECHNOLOGY SPECIALIST

Innovative Learning Solutions

2020 - 2025

- Designed and implemented digital assessments for K-12 education.
- Collaborated with development teams to ensure the usability of assessment tools.
- Conducted user testing and gathered feedback for continuous improvement.
- Analyzed assessment data to inform instructional strategies.
- Provided training for educators on new digital assessment technologies.
- Published findings on the efficacy of technology in assessments.

RESEARCH COORDINATOR

Tech in Education

2015 - 2020

- Coordinated research projects on the impact of technology on student assessment.
- Analyzed data from digital assessments to evaluate student performance.
- Collaborated with educational institutions to implement pilot programs.
- Presented research at technology and education conferences.
- Developed best practice guidelines for digital assessment implementation.
- Engaged with stakeholders to promote technology-enhanced learning.
