EDUCATION

MASTER OF EDUCATION IN
EDUCATIONAL TECHNOLOGY,
STANFORD UNIVERSITY

ACHIEVEMENTS

- Led a research initiative that increased user engagement by 30% for a digital learning platform.
- Published findings in leading education technology journals, enhancing industry knowledge.
- Received the EdTech Researcher Award in 2021 for groundbreaking work in technology integration.

PROFILE

With over 8 years of experience in educational research, I specialize in the intersection of technology and learning. My career has been shaped by a passion for understanding how digital tools can enhance educational outcomes. I have employed mixed methods research to explore the effectiveness of various educational technologies and their integration into traditional learning environments.

EXPERIENCE

EDUCATIONAL TECHNOLOGY RESEARCHER

EdTech Innovations

2016 - Present

- Conducted research on the user experience of educational apps among K-12 students.
- Analyzed survey data using Python, leading to actionable insights for product enhancements.
- Collaborated with UX designers to develop user-centered research methodologies.
- Presented findings at industry conferences, contributing to discussions on technology in education.
- Led workshops for educators on the effective integration of technology in the classroom.
- Authored white papers that shaped company strategy and product development.

RESEARCH ASSOCIATE

Center for Digital Education

2014 - 2016

- Assisted in the evaluation of online learning platforms, gathering both qualitative and quantitative data.
- Developed research instruments that assessed the effectiveness of digital learning tools.
- Coordinated focus groups with educators and students to gather feedback on learning experiences.
- Provided recommendations that improved engagement metrics for online courses.
- Contributed to grant proposals that secured funding for educational technology initiatives.
- Maintained databases and analyzed usage statistics to inform research findings.
