MICHAEL ANDERSON

DATA QUALITY MANAGER

Accomplished Elder Care Impact Analyst with a rich background in geriatric healthcare and data analytics. Specializes in the evaluation of elder care systems and the implementation of data-driven improvements that enhance service delivery. Expertise in identifying trends and patterns through sophisticated data analysis, leading to informed decision-making and strategic planning. Demonstrates a strong commitment to improving the quality of life for seniors by advocating for evidence-based practices and policies.

PROFESSIONAL EXPERIENCE

Elder Care Analytics Group

Mar 2018 - Present

Data Quality Manager

- Oversaw data integrity initiatives to ensure accurate reporting of elder care metrics.
- Analyzed trends in elder health data to inform program adjustments.
- Collaborated with IT to enhance data management systems.
- Developed training materials for staff on data collection best practices.
- Performed audits to identify discrepancies in data reporting.
- Presented findings to executive leadership to guide strategic decisions.

Geriatric Health Institute

Dec 2015 - Jan 2018

Clinical Research Coordinator

- Managed clinical trials focused on treatments for age-related conditions.
- Coordinated participant recruitment and ensured compliance with regulatory standards.
- Analyzed clinical data to assess treatment efficacy and safety.
- Collaborated with healthcare professionals to implement research findings into practice.
- Authored research publications that contributed to the field of geriatric medicine.
- Facilitated community workshops to educate seniors about health research.

ACHIEVEMENTS

- Implemented a data quality framework that improved reporting accuracy by 25%.
- Published research findings in a peer-reviewed journal, influencing best practices in geriatric care.
- Received an award for excellence in clinical research from the Geriatric Health Institute.
