- San Francisco, CA

SKILLS

- Industrial Automation
- Control Systems
- Diagnostic Tools
- Compliance Inspection
- Technical Training
- System Optimization

LANGUAGES

- English
- Spanish
- French

EDUCATION

**BACHELOR OF ENGINEERING IN
ELECTRICAL ENGINEERING,
UNIVERSITY OF INDUSTRIAL
TECHNOLOGY, 2014**

ACHIEVEMENTS

- Enhanced inspection processes, resulting in a 15% improvement in efficiency.
- Recognized for outstanding performance in safety compliance during regulatory audits.
- Received commendation for contributions to the development of a new inspection protocol.

Accomplished Electrical Inspection Technician with a specialization in industrial automation and control systems. Expertise in executing rigorous inspections of automated electrical systems, ensuring optimal performance and compliance with industry standards. Proven track record in leveraging advanced diagnostic tools to enhance system reliability and performance. Demonstrated ability to collaborate with engineering teams to optimize design and functionality, resulting in reduced operational costs.

WORK EXPERIENCE

INDUSTRIAL ELECTRICAL INSPECTOR

Automation Experts LLC

2020 - 2025

- Conducted inspections of automated electrical systems in manufacturing facilities, ensuring compliance with industry regulations.
- Utilized PLC diagnostic tools to assess system functionality and performance.
- Collaborated with design engineers to improve automation system designs for enhanced reliability.
- Documented inspection findings and provided recommendations for system improvements.
- Trained staff on safety protocols and inspection procedures, fostering a culture of safety.
- Participated in cross-functional teams to evaluate new technologies for potential implementation.

ELECTRICAL INSPECTION TECHNICIAN

Industrial Solutions Group

2015 - 2020

- Performed routine inspections of electrical systems in industrial settings, focusing on safety and compliance.
- Identified electrical deficiencies and proposed corrective actions to enhance system safety.
- Maintained compliance documentation for regulatory audits and inspections.
- Assisted in the development of maintenance schedules, improving system reliability.
- Communicated effectively with clients regarding inspection results and recommendations.
- Provided technical support to engineering teams during system upgrades and modifications.
