## **EXPERTISE SKILLS**

- Electrical Engineering
- Electric Vehicle Standards
- Compliance Testing
- Cross-Functional Collaboration
- Risk Analysis
- Continuous Improvement
- Training Development

## **LANGUAGES**

- English
- Spanish
- French

## **CERTIFICATION**

- Bachelor of Science in Electrical Engineering, Automotive University, 2016

# MICHAEL ANDERSON

## ELECTRICAL STANDARDS ENGINEER

Innovative Electrical Standards Engineer with 6 years of experience in the automotive industry, specializing in electrical systems for electric vehicles (EVs). My background includes the development and implementation of electrical standards that enhance vehicle performance and safety. I excel in cross-functional collaboration, working closely with design and manufacturing teams to ensure compliance with industry regulations.

## **PROFESSIONAL EXPERIENCE**

### **AutoTech Engineering**

*Mar 2018 - Present*

Electrical Standards Engineer

- Developed electrical standards for electric vehicle systems, focusing on safety and performance.
- Collaborated with design teams to create electrical schematics that meet regulatory requirements.
- Conducted compliance testing on prototypes, resulting in a 40% reduction in electrical failures.
- Participated in cross-functional teams to integrate electrical standards into manufacturing processes.
- Developed training materials for engineers on the latest electrical compliance standards.
- Implemented a review process that enhanced adherence to electrical standards across projects.

### **Future Mobility Corp.**

*Dec 2015 - Jan 2018*

Junior Electrical Engineer

- Assisted in the development of electrical systems for electric vehicles, ensuring compliance with safety standards.
- Performed testing and validation of electrical components, contributing to improved system reliability.
- Supported senior engineers in conducting audits and inspections for compliance.
- Collaborated with the quality assurance team to enhance testing protocols.
- Documented findings and recommendations for electrical system improvements.
- Participated in design reviews, providing input on electrical standards adherence.

## **ACHIEVEMENTS**

- Contributed to a project that won an industry award for innovation in electric vehicle technology.
- Recognized for excellence in compliance testing in 2021.
- Developed a best practices guide for electrical standards that is now used in multiple departments.
