SKILLS

- Electrical Standards
- ISO Compliance
- Manufacturing Processes
- Risk Assessment
- Team Collaboration
- Training Development
- Auditing

EDUCATION

**BACHELOR OF SCIENCE IN ELECTRICAL
ENGINEERING, TECH UNIVERSITY, 2013**

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Achieved a significant reduction in compliance violations, leading to an award for operational excellence in 2020.
- Developed a training manual that is now utilized company-wide for electrical safety training.
- Recognized for contributions to a project that improved product safety ratings.

Michael Anderson

ELECTRICAL STANDARDS ENGINEER

Detail-oriented Electrical Standards Engineer with a focus on the manufacturing sector, possessing over 9 years of experience in establishing electrical standards that enhance product safety and quality. My career has been characterized by a commitment to excellence and a passion for ensuring that electrical systems operate safely and efficiently. I have successfully led projects to develop electrical standards that comply with ISO and other regulatory requirements.

EXPERIENCE

ELECTRICAL STANDARDS ENGINEER

Manufacturing Solutions Corp.

2016 - Present

- Established electrical standards for manufacturing processes, ensuring compliance with ISO regulations.
- Conducted regular inspections and audits, leading to a 35% reduction in compliance violations.
- Collaborated with production teams to integrate electrical standards into daily operations.
- Developed training programs for staff on electrical safety and compliance.
- Assisted in the design of electrical systems for new manufacturing equipment.
- Implemented a feedback loop for continuous improvement of electrical standards.

JUNIOR ELECTRICAL ENGINEER

Precision Electronics

2014 - 2016

- Supported the development of electrical standards for various products, focusing on safety and compliance.
- Performed testing on electrical components, ensuring adherence to safety regulations.
- Assisted in the creation of compliance documentation for new product lines.
- Collaborated with senior engineers to conduct risk assessments on electrical systems.
- Documented findings and provided recommendations for improvements.
- Participated in team meetings to discuss compliance challenges and solutions.
