I am a dedicated Electronics Compliance Engineer with over 6 years of experience in the industrial automation sector. My expertise lies in ensuring that automated systems and electronic devices comply with both national and international safety standards. My career has been marked by a commitment to quality and efficiency, where I have successfully implemented compliance processes that have reduced the time and costs associated with regulatory approvals.

## WORK EXPERIENCE

### Electronics Compliance Engineer | Industrial Automation Corp.

Jan 2022 – Present

- Developed and implemented compliance strategies for automated systems, achieving a 30% reduction in approval times.
- Collaborated with product development teams to ensure compliance is integrated into design processes.
- Conducted internal audits to verify adherence to safety and quality standards.
- Maintained documentation for regulatory submissions, ensuring accuracy and completeness.
- Provided training to engineering teams on compliance requirements and best practices.
- Monitored regulatory changes and updated compliance practices accordingly.

### Compliance Engineer | Automation Solutions Ltd.

Jul 2019 – Dec 2021

- Supported compliance testing for electronic devices used in industrial automation.
- Assisted in the preparation of compliance documentation for regulatory submissions.
- Conducted compliance audits to ensure adherence to industry standards.
- Maintained accurate records of compliance testing and certification.
- Engaged with external auditors during compliance evaluations to ensure smooth processes.
- Participated in industry conferences to stay updated on compliance trends in automation.
