EDUCATION

Bachelor of Science in Biomedical Engineering

Health University
2013

SKILLS

- Medical Device Design
- Regulatory Compliance
- Project Management
- Risk Assessment
- Team Collaboration
- User Testing

LANGUAGES

- English
- Spanish
- French

WORK EXPERIENCE

Lead Electronics Engineer

2020-2023

HealthTech Innovations

- Directed the design and development of medical devices that improved patient monitoring efficiency by 40%
- Managed project timelines and resource allocation to ensure timely product delivery
- Collaborated with clinical teams to gather user requirements and ensure product functionality meets needs
- Conducted risk assessments and ensured compliance with FDA regulations
- Presented technical findings to stakeholders, ensuring alignment with healthcare objectives
- Mentored junior engineers, fostering a culture of learning and collaboration

Electronics Engineer

2019-2020

MedTech Solutions

- Assisted in the development of diagnostic equipment, achieving a 20% reduction in testing time
- Supported project management by tracking progress and budget compliance
- Conducted user testing and gathered feedback to refine product design
- Maintained detailed documentation for compliance and quality assurance
- Worked closely with suppliers to ensure timely delivery of high-quality components
- Participated in team meetings to discuss project updates and challenges

ACHIEVEMENTS

- Received the 'Innovation Award' for the development of a groundbreaking patient monitoring system
- Contributed to a project that improved diagnostic accuracy by 30%
- Successfully led a team that met all project deadlines and budget constraints
