

MICHAEL ANDERSON

LEAD STANDARDS ENGINEER

PROFILE

With over 10 years of experience in electronics engineering, I specialize in developing and implementing international standards for electronic devices. My career has been marked by a commitment to advancing technology while ensuring compliance with stringent regulations. I have extensive experience working in the automotive sector where I led initiatives to enhance electronic safety standards.

EXPERIENCE

LEAD STANDARDS ENGINEER

AutoTech Dynamics

2016 - Present

- Developed automotive electronic safety standards in accordance with ISO 26262.
- Led a team of engineers to assess compliance and implement corrective measures.
- Conducted comprehensive audits of electronic systems for adherence to regulatory standards.
- Collaborated with external organizations to align corporate standards with industry benchmarks.
- Streamlined compliance processes, reducing project timelines by 20%.
- Presented findings and recommendations to senior management and stakeholders.

ELECTRONICS COMPLIANCE SPECIALIST

Innovative Electronics Corp.

2014 - 2016

- Evaluated product designs for compliance with FCC and UL standards.
- Developed and maintained documentation for regulatory submissions.
- Conducted training sessions on compliance best practices for engineering teams.
- Implemented a new tracking system for compliance data, enhancing reporting accuracy.
- Worked alongside R&D to ensure that new products met established safety standards.
- Achieved a 25% reduction in compliance-related issues through proactive risk management.
