# MICHAEL ANDERSON

## ELECTRONICS VALIDATION ENGINEER

Experienced Electronics Validation Engineer with a strong background in consumer electronics and 7 years of hands-on experience in product testing and validation. Adept at developing comprehensive validation strategies and executing them to ensure product quality and performance. Proficient in using various testing tools and methodologies, including automated testing frameworks. Strong analytical skills allow for effective problem-solving and troubleshooting of complex electronic systems.

## PROFESSIONAL EXPERIENCE

### **Smart Devices Corp.**

*Mar 2018 - Present*

Electronics Validation Engineer

- Led validation efforts for new consumer electronics products, ensuring compliance with FCC and CE standards.
- Developed and executed detailed test plans to assess product functionality and performance.
- Utilized testing software to automate regression testing, improving testing efficiency by 40%.
- Conducted usability testing to gather user feedback and inform design improvements.
- Collaborated with product managers to align testing with product launch timelines.
- Presented validation findings to stakeholders and recommended improvements for future products.

### **Gadget World Inc.**

*Dec 2015 - Jan 2018*

Validation Engineer

- Performed comprehensive testing on various electronic devices to ensure quality and reliability.
- Assisted in the development of testing protocols and documentation for new products.
- Monitored and reported on testing progress to ensure timely completion of projects.
- Engaged with cross-functional teams to troubleshoot and resolve validation issues.
- Executed performance tests to evaluate product durability under various conditions.
- Maintained a database of test results for analysis and reporting purposes.

## ACHIEVEMENTS

- Achieved a 20% reduction in product faults through rigorous testing and quality assurance practices.
- Received a 'Quality Excellence Award' for outstanding contributions to product validation.
- Successfully launched multiple products on schedule by improving testing timelines.
