SKILLS

- Cloud Computing
- DevOps
- Automation
- Data Security
- Systems Architecture
- Agile Methodologies

LANGUAGES

- English
- Spanish
- French

EDUCATION

BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY, CITY UNIVERSITY

ACHIEVEMENTS

- Recognized for outstanding contribution to cloud migration project that saved the company $200,000 annually.
- Achieved a 99.9% availability rate for critical applications over two consecutive years.
- Implemented a security protocol that reduced data breaches by 75%.

PROFILE

Results-driven Emerging Systems Engineer specializing in automation and cloud computing with a strong track record of enhancing system efficiencies in the financial services industry. Over 6 years of experience in developing and deploying robust systems that drive organizational success. My expertise lies in cloud infrastructure design, DevOps practices, and data security, allowing me to implement solutions that not only meet but exceed compliance standards.

EXPERIENCE

SYSTEMS ARCHITECT

Finance Tech Solutions

2016 - Present

- Architected a cloud-based system that improved transaction processing speed by 40%.
- Developed automated deployment pipelines using Jenkins and Docker, reducing release time by 50%.
- Ensured data integrity and security compliance across all deployed systems.
- Conducted system audits to identify vulnerabilities and implement corrective measures.
- Worked closely with cross-functional teams to align system capabilities with business objectives.
- Mentored junior engineers on best practices in system design and cloud architecture.

DEVOPS ENGINEER

Secure Bank Ltd.

2014 - 2016

- Implemented CI/CD pipelines that streamlined software development workflows.
- Collaborated on the migration of legacy systems to cloud environments, enhancing scalability.
- Monitored system performance and implemented optimizations that reduced downtime.
- Trained team members on cloud technologies and DevOps tools.
- Created comprehensive documentation for system configurations and processes.
- Participated in incident response teams to troubleshoot and resolve system outages.
