EDUCATION

BACHELOR OF SCIENCE IN COMPUTER SCIENCE, HEALTH UNIVERSITY

ACHIEVEMENTS

- Recognized for leading a project that won the 'Innovation in Security' award in 2020.
- Achieved a 100% pass rate in compliance audits for three consecutive years.
- Implemented a security training program that improved staff awareness by 80%.

Detail-oriented Emerging Systems Engineer with a focus on cybersecurity, bringing over 7 years of experience in protecting sensitive information and ensuring system integrity in the healthcare industry. My career is distinguished by a proactive approach to identifying vulnerabilities and developing comprehensive security solutions that mitigate risks. I have successfully led initiatives to implement advanced security protocols and systems that comply with stringent regulatory requirements.

WORK EXPERIENCE

CYBERSECURITY ENGINEER
HealthSecure Systems
2020 - 2025

- Developed and implemented security protocols that reduced data breaches by 60%.
- Conducted risk assessments to identify vulnerabilities and recommend mitigation strategies.
- Led incident response teams to address security breaches and minimize impact.
- Trained staff on cybersecurity best practices and compliance standards.
- Collaborated with IT teams to ensure secure integration of new systems.
- Monitored network traffic for suspicious activity and responded accordingly.

SYSTEMS ANALYST
MedTech Innovations
2015 - 2020

- Analyzed system requirements to enhance data protection measures.
- Assisted in the development of secure applications for patient data management.
- Participated in audits to ensure compliance with healthcare regulations.
- Documented security incidents and developed reports for management review.
- Collaborated with software engineers to implement security enhancements.
- Engaged with stakeholders to assess security needs and solutions.
