SKILLS

- Software Development
- System Integration
- Automotive Systems
- Agile
- Testing
- Collaboration

EDUCATION

BACHELOR OF SCIENCE IN SOFTWARE ENGINEERING, TECH UNIVERSITY

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Contributed to a project that won the 'Best Innovation' award in the automotive sector.
- Implemented a feature that reduced diagnostics time by 25%.
- Recognized for outstanding teamwork and collaboration during product launches.

Proactive Emerging Systems Engineer with a specialization in software development and system integration, boasting over 3 years of experience in the automotive industry. My journey has been defined by a passion for integrating cutting-edge technology into automotive systems to improve functionality and user experience. I possess a solid understanding of software engineering principles and have successfully developed applications that enhance vehicle performance and connectivity.

EXPERIENCE

SOFTWARE ENGINEER

AutoTech Solutions

2016 - Present

- Developed software applications to optimize vehicle diagnostics and performance.
- Collaborated with hardware engineers to integrate software solutions into automotive systems.
- Participated in code reviews to ensure software quality and adherence to standards.
- Documented application specifications and user manuals for end-users.
- Conducted testing to identify and rectify software issues before deployment.
- Engaged in Agile methodologies to enhance team productivity and project delivery.

ENGINEERING INTERN

Future Cars Ltd.

2014 - 2016

- Assisted in the development of automotive software for connected vehicles.
- Conducted research on emerging technologies in automotive systems.
- Supported the engineering team in testing and troubleshooting software applications.
- Documented technical specifications and test results for reference.
- Participated in team meetings to discuss project progress and challenges.
- Provided feedback on user interface designs to enhance usability.
