MASTER OF HEALTH INFORMATICS, UNIVERSITY OF HEALTH SCIENCES

ACHIEVEMENTS

- Improved patient satisfaction scores by 25% through effective tech implementation.
- Led a project that integrated telehealth solutions, resulting in a 40% increase in patient engagement.
- Received the 'Innovation Award' for contributions to healthcare technology advancements.

PROFILE

Experienced Emerging Technology Analyst with a focus on healthcare innovations and a track record of improving patient outcomes through technology integration. Over 5 years in the healthcare tech industry, I have developed expertise in analyzing and implementing emerging technologies such as telemedicine and health informatics. My role involves collaborating with clinical staff and IT teams to ensure that solutions are user-friendly and meet regulatory standards.

EXPERIENCE

HEALTHCARE TECHNOLOGY ANALYST

HealthTech Innovations

2016 - Present

- Evaluated and recommended healthcare technologies to improve patient care delivery.
- Collaborated with clinical teams to identify needs and develop tech solutions.
- Conducted analyses to assess the impact of telemedicine on patient outcomes.
- Facilitated training for healthcare providers on new software tools.
- Monitored compliance with healthcare regulations during technology implementations.
- Presented findings to senior management to inform strategic planning.

IT COORDINATOR

City Healthcare System

2014 - 2016

- Assisted in the deployment of electronic health record (EHR) systems across departments.
- Gathered user feedback to enhance system functionality and user experience.
- Maintained documentation of technology processes and workflows.
- Provided technical support to clinical staff during technology upgrades.
- Participated in interdisciplinary meetings to align technology with clinical needs.
- Researched emerging health technologies for potential integration.
