SKILLS

- IoT
- Robotics
- Data Analytics
- Process Optimization
- Training
- Collaboration

LANGUAGES

- English
- Spanish
- French

EDUCATION

**BACHELOR OF SCIENCE IN INDUSTRIAL
ENGINEERING, TECHNICAL
UNIVERSITY**

ACHIEVEMENTS

- Implemented IoT solutions that improved production efficiency by 20%.
- Recognized for contributions to a project that reduced operational costs by 15%.
- Received 'Best Team Player' award for collaborative efforts on technology initiatives.

WORK EXPERIENCE

MANUFACTURING TECHNOLOGY ANALYST

Advanced Manufacturing Corp.

2020 - 2025

- Analyzed production workflows to identify opportunities for technology integration.
- Collaborated with engineering teams to implement IoT solutions for real-time monitoring.
- Conducted feasibility studies to assess the impact of robotics on production efficiency.
- Provided training for staff on new technological processes.
- Monitored performance metrics to evaluate technology effectiveness.
- Presented findings to the management team to support investment decisions.

JUNIOR TECHNOLOGY SPECIALIST

Manufacturing Solutions Ltd.

2015 - 2020

- Assisted in the implementation of data analytics tools to enhance operational efficiency.
- Supported project managers in coordinating technology deployment schedules.
- Gathered user feedback to refine technology applications on the shop floor.
- Maintained documentation of technology processes and training materials.
- Conducted research on emerging manufacturing technologies.
- Participated in team meetings to align technology with production goals.
