EDUCATION

MASTER OF PUBLIC ADMINISTRATION, UNIVERSITY OF PUBLIC AFFAIRS, 2012

ACHIEVEMENTS

- Recognized for leading a project that received a national award for innovation in public service in 2021.
- Successfully implemented technology solutions that improved efficiency by 35% for a non-profit client.
- Developed a community outreach program that increased technology access for underserved populations.

SENIOR PROJECT MANAGER

With 9 years as an Emerging Technology Consultant, I have successfully guided organizations in the public sector through the complexities of technology adoption and digital transformation. My extensive experience includes working with governmental agencies and non-profits, where I have developed strategies that leverage technology to improve service delivery and enhance operational efficiency.

WORK EXPERIENCE

SENIOR PROJECT MANAGER
Public Sector Technology Solutions
2020 - 2025

- Led a digital transformation project for a city government, improving citizen service delivery by 30%.
- Managed cross-functional teams to ensure the successful implementation of technology solutions aligned with public sector goals.
- Conducted stakeholder engagement sessions to gather input and feedback, enhancing project outcomes.
- Developed and maintained project plans, schedules, and budgets, ensuring adherence to timelines.
- Provided technical guidance and support to clients during the implementation of new systems.
- Facilitated training sessions for end-users, resulting in a 25% increase in system utilization.

TECHNOLOGY CONSULTANT
Civic Tech Innovations
2015 - 2020

- Assisted non-profit organizations in implementing technology solutions to improve operational efficiencies.
- Conducted needs assessments to identify technology gaps and recommend solutions.
- Engaged with community stakeholders to ensure alignment of technology projects with community needs.
- Provided ongoing support and maintenance for implemented systems, ensuring optimal performance.
- Developed training materials and user guides to facilitate user adoption.
- Analyzed data to measure the impact of technology initiatives on service delivery.
