SUMMARY

As an Emerging Technology Product Engineer with over 8 years of experience in the tech industry, I have dedicated my career to developing innovative solutions that leverage cutting-edge technologies such as AI, machine learning, and IoT. My journey began in software development, where I honed my programming skills before transitioning to product engineering.

WORK EXPERIENCE

Senior Product Engineer Tech Innovations LLC   *Jan 2023 - Present*

- Led the development of an AI-driven analytics platform that increased client engagement by 30%.
- Collaborated with UX/UI designers to enhance product usability, resulting in a 25% reduction in customer support tickets.
- Managed a team of 5 engineers in an agile environment to deliver product updates bi-weekly.
- Conducted regular market analysis to inform product strategy and feature prioritization.
- Implemented automated testing frameworks that reduced deployment times by 40%.
- Presented product vision and roadmaps to executive stakeholders, securing funding for new initiatives.

Product Engineer NextGen Solutions   *Jan 2020 - Dec 2022*

- Developed and launched a smart home IoT device that received a "Best in Show" award at a major tech conference.
- Worked closely with the marketing team to create go-to-market strategies that improved product visibility.
- Analyzed user feedback to iterate on product features, leading to a 15% increase in user satisfaction ratings.
- Coordinated with manufacturing teams to ensure timely delivery of product components.
- Utilized project management tools to track milestones and deliverables across multiple projects.
- Facilitated training sessions for new hires on emerging technologies and product specifications.

EDUCATION

Bachelor of Science in Computer Engineering, University of Technology, 2015   *Sep 2019 - Oct 2020*
