MICHAEL ANDERSON

DIRECTOR OF ENERGY MANAGEMENT

Accomplished Energy Efficiency Engineer with over a decade of experience in the energy sector, specializing in advanced energy management systems and sustainable design practices. Proven expertise in leading cross-functional teams to deliver comprehensive energy solutions that align with organizational sustainability goals. Adept at leveraging data-driven insights to inform project development and execution.

PROFESSIONAL EXPERIENCE

Energy Innovations Group

Mar 2018 - Present

Director of Energy Management

- Oversaw the development and implementation of company-wide energy efficiency strategies.
- Directed a team of energy engineers in executing high-impact energy projects.
- Established partnerships with government agencies to secure funding for energy initiatives.
- Conducted feasibility studies to evaluate potential energy projects.
- Presented energy performance reports to executive leadership and stakeholders.
- Championed corporate sustainability initiatives that resulted in significant energy savings.

EcoLogic Engineering

Dec 2015 - Jan 2018

Senior Project Engineer

- Developed and managed energy efficiency projects for commercial and institutional clients.
- Implemented energy management systems that improved operational efficiency.
- Conducted training sessions for staff on energy conservation techniques.
- Collaborated with architects and contractors to design energy-efficient buildings.
- Utilized advanced modeling software to simulate energy performance.
- Provided technical support during project execution to ensure compliance with standards.

ACHIEVEMENTS

- Increased overall energy efficiency across the organization by 35% within three years.
- Received a national award for innovation in energy management practices.
- Led a project that resulted in a \$2 million reduction in energy costs for a major client.
