### EDUCATION

**BACHELOR OF SCIENCE IN ENVIRONMENTAL ENGINEERING, UNIVERSITY OF MICHIGAN**

### ACHIEVEMENTS

- Achieved a 40% increase in project efficiency through innovative management techniques.
- Successfully secured funding for multiple energy storage projects totaling over \$8 million.
- Featured speaker at national energy conferences on energy storage solutions.

### PROFILE

Dynamic Energy Storage Consultant with a solid background in renewable energy technologies and project management. Expertise includes conducting detailed assessments of storage solutions and their integration into sustainable energy systems. Demonstrated ability to lead teams and collaborate with stakeholders to drive project success, while maintaining a focus on efficiency and cost-effectiveness.

### EXPERIENCE

#### ENERGY STORAGE PROJECT MANAGER

##### EcoPower Solutions

*2016 - Present*

- Managed end-to-end project lifecycle of energy storage initiatives from conception to execution.
- Developed project scope, timelines, and budgets while ensuring alignment with corporate objectives.
- Implemented project management methodologies to enhance team productivity and project delivery.
- Engaged with clients to understand their energy needs and propose tailored storage solutions.
- Oversaw the installation and commissioning of energy storage systems, ensuring compliance with safety standards.
- Provided ongoing support and maintenance for clients post-project completion.

#### RENEWABLE ENERGY CONSULTANT

##### Bright Future Energy

*2014 - 2016*

- Conducted feasibility studies for renewable energy projects incorporating storage technologies.
- Analyzed regulatory requirements and market conditions to guide project development.
- Collaborated with engineering teams to design integrated energy systems.
- Prepared and delivered presentations to stakeholders on the benefits of energy storage.
- Participated in industry conferences to share insights on energy storage advancements.
- Developed strategic partnerships with technology providers to enhance service offerings.
