SKILLS

- Project Management
- Hybrid Systems
- Compliance
- Stakeholder Engagement
- Data Analysis
- Continuous Improvement

LANGUAGES

- English
- Spanish
- French

EDUCATION

**BACHELOR OF SCIENCE IN
MECHANICAL ENGINEERING,
UNIVERSITY OF MICHIGAN**

ACHIEVEMENTS

- Led a team to develop a hybrid storage solution that improved energy efficiency by 20%.
- Received client commendations for outstanding project execution.
- Contributed to the company's sustainability initiatives, reducing carbon footprint by 15%.

WORK EXPERIENCE

ENERGY STORAGE PROJECT MANAGER

EcoEnergy Solutions

2020 - 2025

- Managed the development of hybrid energy storage systems for commercial applications.
- Coordinated project timelines and resources to ensure successful execution.
- Engaged with clients to define project requirements and expectations.
- Oversaw compliance with safety and environmental regulations.
- Facilitated workshops to promote innovative problem-solving.
- Monitored project progress and provided regular updates to stakeholders.

ENERGY STORAGE ENGINEER

Dynamic Power Solutions

2015 - 2020

- Designed energy storage systems tailored to client specifications.
- Conducted performance assessments and optimization studies.
- Collaborated with engineering teams on system integration.
- Developed training materials for client education.
- Implemented software tools for data analysis and monitoring.
- Participated in industry conferences to share knowledge and best practices.
