

MICHAEL ANDERSON

Calibration Technician

Driven Engine Calibration Engineer with a focus on performance enhancement and emissions reduction. Bringing over 5 years of experience in the automotive industry, with a strong foundation in engine calibration and testing. Skilled in using advanced diagnostic tools and calibration software to optimize engine performance. A team player with a commitment to quality and efficiency, capable of working collaboratively with engineers and stakeholders to achieve project goals.

EDUCATION

Bachelor of Science in Automotive Engineering

University of Florida
2016

SKILLS

- Calibration Techniques
- Emissions Testing
- Data Analysis
- Problem Solving
- Team Collaboration
- Diagnostic Tools

LANGUAGES

- English
- Spanish
- French

WORK EXPERIENCE

Calibration Technician

2020-2023

Dynamic Engines LLC

- Performed calibration adjustments on various engine models to improve performance metrics.
- Conducted emissions testing to ensure compliance with regulatory standards.
- Assisted in the development of calibration maps for new engine designs.
- Utilized diagnostic equipment to troubleshoot engine performance issues.
- Documented testing procedures and results for internal review.
- Collaborated with engineering teams to enhance calibration methodologies.

Junior Calibration Technician

2019-2020

NextGen Automotive

- Supported calibration efforts for internal combustion engines.
- Engaged in data collection and analysis during testing phases.
- Assisted in troubleshooting engine calibration issues under supervision.
- Maintained accurate records of calibration processes and results.
- Participated in team meetings to discuss project developments.
- Contributed to the documentation of calibration protocols.

ACHIEVEMENTS

- Improved engine performance metrics by 12% through effective calibration adjustments.
- Recognized for outstanding contributions during the calibration process.
- Contributed to a team project that received an innovation award.
