### SUMMARY

Dedicated Engineering Geologist with over 10 years of experience in geotechnical engineering and environmental assessments. Proven track record in conducting site investigations and analyzing geological data to ensure project viability. Skilled in using advanced geological software and tools to provide accurate forecasts and mitigate risks. Strong background in collaborating with multidisciplinary teams to develop sustainable solutions for infrastructure projects.

### WORK EXPERIENCE

#### Senior Engineering Geologist GeoTech Solutions

Jan 2023 - Present

- Led geological assessments for major infrastructure projects, reducing potential risks by 30%.
- Utilized advanced modeling software to simulate geological behavior under various conditions.
- Conducted site investigations and prepared detailed reports for client presentations.
- Collaborated with environmental scientists to ensure compliance with regulations.
- Trained junior geologists on best practices and software usage, enhancing team efficiency.
- Presented findings at industry conferences, increasing company visibility and reputation.

#### Geologist Earth Dynamics

Jan 2020 - Dec 2022

- Performed geological mapping and sampling for various construction sites.
  - Analyzed soil and rock samples to determine material properties and suitability.
  - Assisted in the preparation of environmental impact assessments for projects.
  - Supported project managers in developing geotechnical reports for stakeholders.
  - Maintained accurate records and data entry for geological surveys.
  - Participated in fieldwork, ensuring safety protocols were strictly followed.
- 

### EDUCATION

#### Master of Science in Geological Engineering, University of California, 2014

Sep 2019 - Oct 2020

---

### ADDITIONAL INFORMATION

- **Technical Skills:** Geological Mapping, Soil Analysis, Project Management, Environmental Compliance, Data Interpretation, Software Proficiency
- **Awards/Activities:** Received the 'Outstanding Contribution Award' at GeoTech Solutions in 2019.
- **Awards/Activities:** Published research on the effects of climate change on geological structures in a leading journal.
- **Awards/Activities:** Successfully managed a project that resulted in a 15% cost reduction through innovative geological solutions.
- **Languages:** English, Spanish, French
