EDUCATION

MASTER OF SCIENCE IN INFORMATION SECURITY, STANFORD UNIVERSITY, 2014

ACHIEVEMENTS

- Improved network security posture, achieving a 50% reduction in potential vulnerabilities.
- Awarded 'Best Project' for developing a security awareness program.
- Successfully managed a budget of \$500,000 for network security enhancements.

PROFILE

Seasoned Enterprise Network Engineer with a specialization in network security and over 12 years of experience in telecommunications. Known for expertise in troubleshooting complex network issues and implementing effective security policies and frameworks. Strong ability to analyze performance metrics and recommend enhancements to optimize network reliability. Proven history in managing large-scale network projects, ensuring compliance with industry standards and regulations.

EXPERIENCE

LEAD NETWORK SECURITY ENGINEER

SecureNet Solutions

2016 - Present

- Designed and implemented a comprehensive network security strategy for a multinational corporation.
- Conducted regular security audits that identified and mitigated potential threats.
- Configured firewalls and intrusion detection systems to protect sensitive data.
- Collaborated with compliance teams to ensure adherence to industry regulations.
- Led incident response efforts, successfully mitigating breaches with minimal impact.
- Trained IT staff on advanced security protocols and risk management techniques.

NETWORK ENGINEER

Telecom Innovations Corp.

2014 - 2016

- Maintained a 24/7 network monitoring system to ensure uninterrupted service.
- Implemented VLAN configurations to improve network segmentation and security.
- Reduced network latency by 25% through optimization of routing paths.
- Supported network integration during company mergers, ensuring seamless connectivity.
- Documented network changes and configurations for future reference and training.
- Provided technical support to clients, enhancing customer satisfaction ratings.
