EXPERTISE SKILLS

- Hydrological Modeling
- Water Resource Management
- GIS
- Data Analysis
- Community Engagement
- Technical Writing

LANGUAGES

- English
- Spanish
- French

CERTIFICATION

- Master of Science in Hydrology,
University of Florida

MICHAEL ANDERSON

HYDROLOGICAL MODELER

Innovative Environment Modeler specializing in hydrological modeling and water resource management. Extensive experience in developing models that simulate water flow and quality in various ecosystems. Demonstrated expertise in utilizing hydrological software tools to inform water management policies and practices. Proven track record of collaborating with governmental and non-governmental organizations to enhance water sustainability initiatives.

PROFESSIONAL EXPERIENCE

Water Resources Agency

Mar 2018 - Present

Hydrological Modeler

- Developed hydrological models to predict water availability and quality.
- Collaborated with engineers on water infrastructure projects.
- Analyzed hydrological data using GIS and remote sensing technologies.
- Engaged with local communities to promote sustainable water practices.
- Presented model results at regional water management forums.
- Authored technical reports on water resource assessments.

EcoConsulting Group

Dec 2015 - Jan 2018

Environmental Consultant

- Conducted assessments of water quality and availability for clients.
- Utilized modeling software to analyze water resource challenges.
- Collaborated with teams on environmental impact assessments.
- Developed recommendations for sustainable water management.
- Facilitated workshops to educate stakeholders on water sustainability.
- Prepared grant proposals for water conservation projects.

ACHIEVEMENTS

- Received the Water Conservation Leadership Award.
- Developed a model adopted by state agencies for water management.
- Successfully led a project that improved local water quality by 30%.
