MICHAEL ANDERSON

COMMUNITY ENVIRONMENTAL HEALTH COORDINATOR

Enthusiastic Environmental Health Specialist with a focus on community health and wellness. Over 5 years of experience in environmental monitoring and assessment, specializing in urban areas. Proven ability to conduct thorough investigations and effectively communicate findings to the public. Strong advocate for environmental justice, working to ensure equitable access to clean air and water for underserved communities.

PROFESSIONAL EXPERIENCE

Urban Health Initiative

Mar 2018 - Present

Community Environmental Health Coordinator

- Coordinated community outreach efforts to raise awareness of environmental health issues.
- Conducted neighborhood assessments to identify environmental hazards.
- Developed educational materials and workshops for residents on pollution prevention.
- Collaborated with local health departments to address environmental health disparities.
- Utilized community feedback to improve program effectiveness and engagement.
- Monitored air and water quality data to inform public health policies.

Public Health Agency

Dec 2015 - Jan 2018

Environmental Health Technician

- Assisted in the inspection of facilities for compliance with environmental health regulations.
- Collected and analyzed samples of air and water for contaminant testing.
- Maintained accurate records of inspections and findings for reporting purposes.
- Supported public health campaigns aimed at reducing environmental risks.
- Collaborated with team members to develop response strategies for environmental emergencies.
- Engaged with the community to improve awareness of health risks related to environmental factors.

ACHIEVEMENTS

- Developed a community-led initiative that reduced local pollution levels by 15%.
- Received the Community Impact Award for outstanding service in environmental health.
- Facilitated partnerships that improved access to clean water in underserved neighborhoods.
